Introduction to

and

Sam Albers
sam.albers@gov.bc.ca
@big_bag_sam

Schedule

- Getting Started (1:00 – 1:45)
- Intro to tidyhydat (1:45 – 2:30)
- Break (2:30 – 2:45)
- Transforming data (2:45 – 3:45)
- Visualizations (3:45 – 4:30)
- How to ask for help – Where do you go next? (4:30 – 5:00)

Introduction

@big_bag_sam

What this workshop is not...

A comprehensive course on all of R

What this course is…

A specific starting point in R

A chance for you to code

Your turn

Introduce yourself to your neighbour

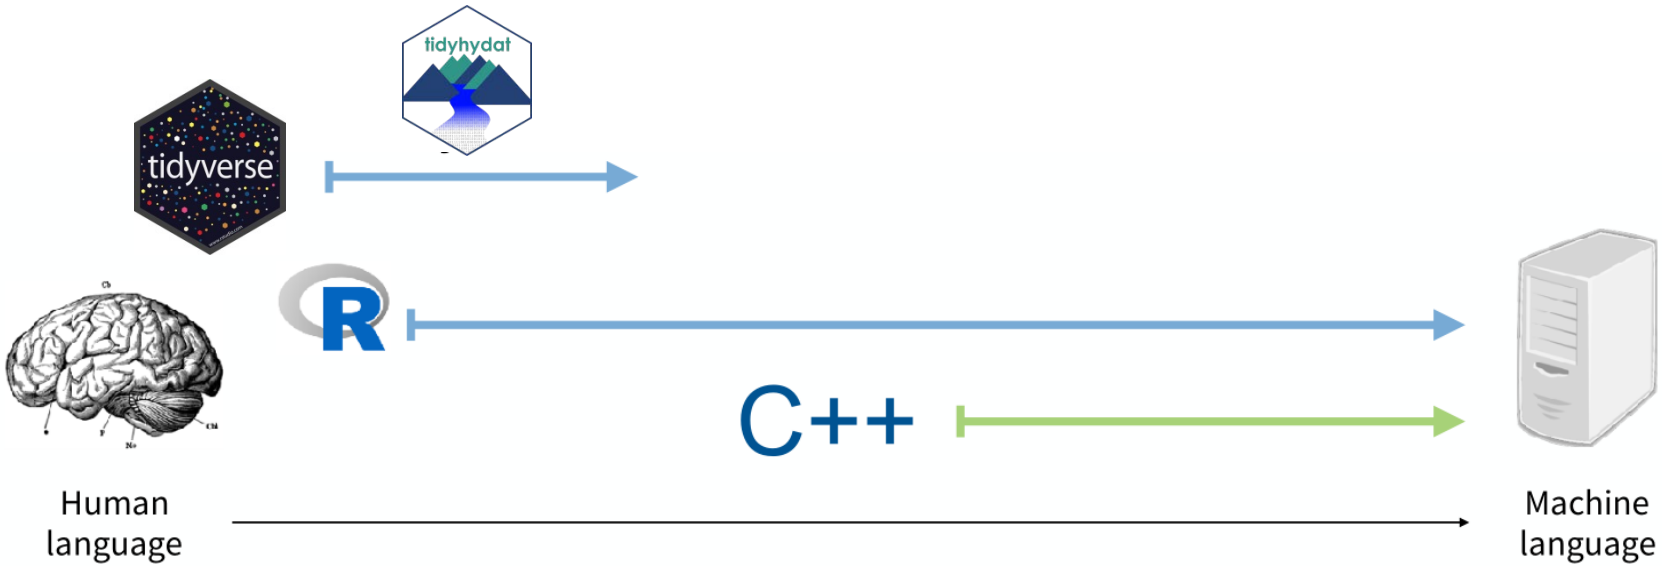
- Who are you?
- Why are you here?
- What is your experience with R?

Your turn

I’m stuck

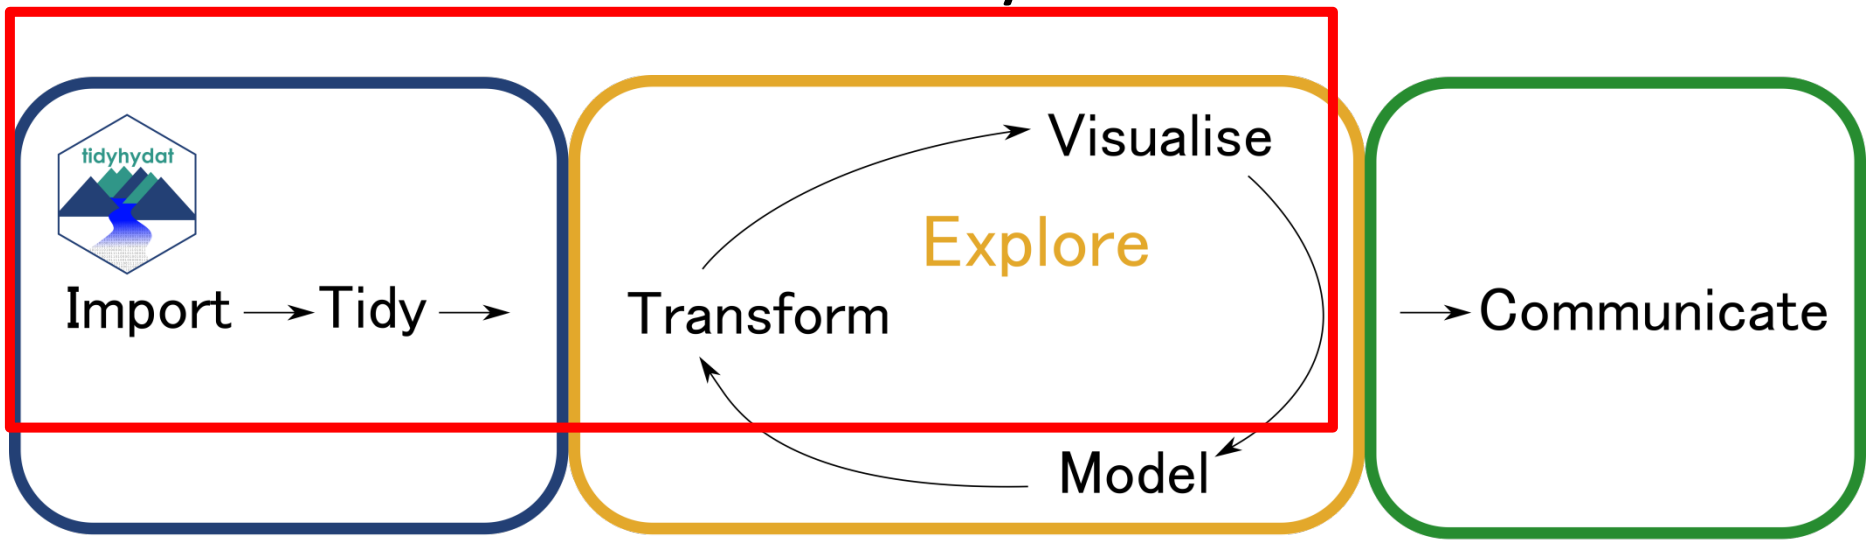
I’m done

R – A programming language for data



Adapted from 'Master the tidyverse' CC by RStudio

The Data Analysis Process



Adapted from Wickham and Grolemund 2017

Focus less time of coding and more time on data analysis

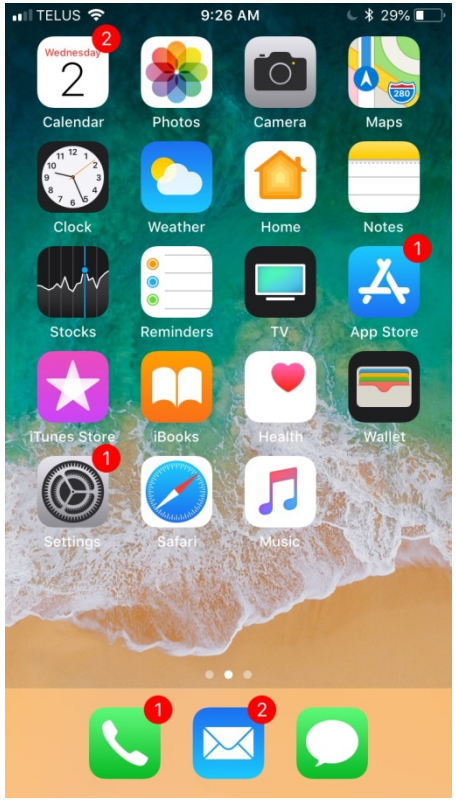
Why use R?

- Efficient
- Reproducible
- Scalable

Base R

Packages

RStudio



Anatomy of an R function

```
fraser <- hy_daily_flows(station_number = "08MF005")
```

Object Function Argument Value

Anatomy of an R function

```
fraser <- hy_daily_flows(station_number = "08MF005")
```

Object Function Argument Value

"To understand computations in R, two slogans are helpful:

Everything that exists is an object.

Everything that happens is a function call."

— John Chambers

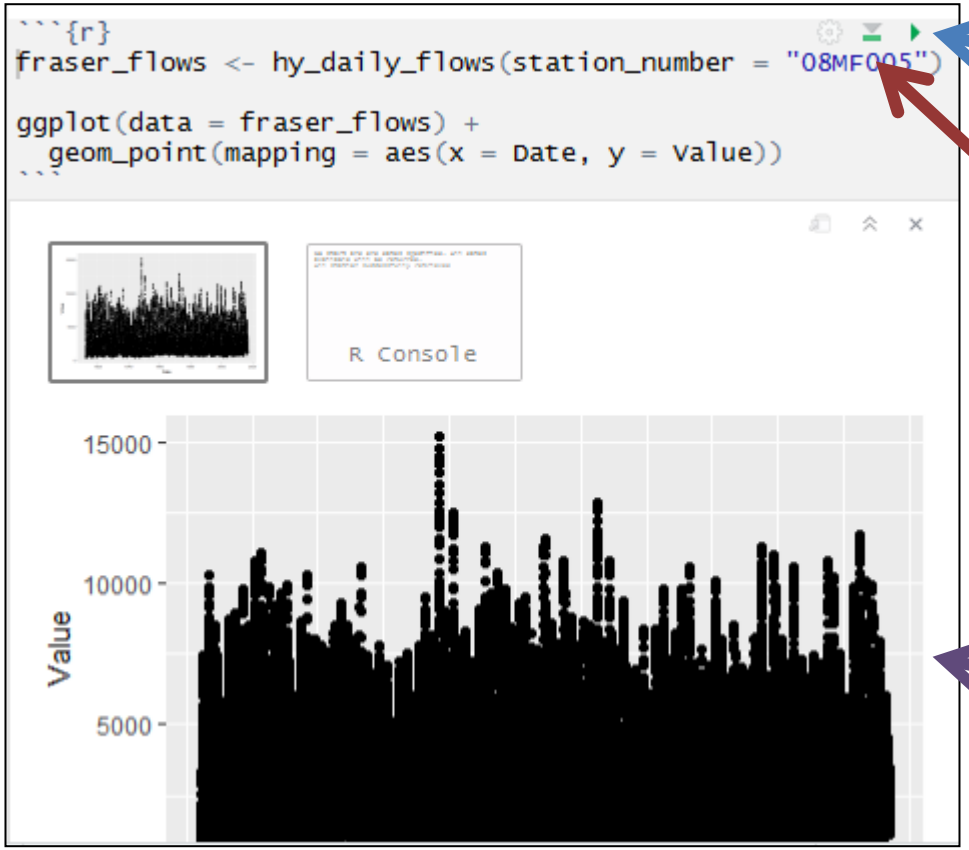
D) This is where you get help, see output and interact with files

Your turn

- Open the file intro-to-tidyhydat-and-tidyverse.Rproj
- Open 00-Getting-started.Rmd and start doing analysis!

A quick word on Notebooks

- Integrates:
  - Code
  - Text
  - Output



Click to run code in chunk

Click to run all code chunks above

Code output
